ABOUT AAAM INTERNATIONAL &
OUR GLOBAL FOOTPRINT

ABOUT AAAM INTERNATIONAL
The American Academy of Aesthetic Medicine (AAAM) International is dedicated to providing education and hands-on training to licensed physicians who have a scientific and clinical interest in medical aesthetics.

9000+ aesthetic doctors and still counting
Since its inception in 1999, the AAAM has conducted over 400 board certification courses and congresses worldwide, accounting to more than 9000 doctors trained in US, Europe, Middle East, South Africa and the whole of Asia Pacific including Singapore, Malaysia, Hong Kong, Australia, Thailand, Myanmar, Philippines, India, Indonesia and Taiwan.

AAAM is currently expanding at full speed achieving double-digit growth in the number of certification courses, variety and continent coverage. For more information on the AAAM Board Certification Courses, visit http://www.aaamed.org/courses_info.cfm

ABOUT CBB MEDICAL TRAINING
Singapore-based Ezyhealth group is one of Singapore’s pioneering and most respected companies in the healthcare industry having had extensive business interests that include health events organising, aesthetic training for medical professionals and publishing of health magazines and books spanning over 10 years.

Its training and development arm, CBB Medical Training partners with the AAAM to promote regular honing of skills and knowledge in the dynamic field of Aesthetics Medicine by organizing and delivering consistently high quality training through its courses, workshops and congresses to doctors in the Asia Pacific region and beyond.
WELCOME MESSAGE

We extend a warm welcome to each one of you to the 5th Edition of Gender Aesthetic Asia Focus Series 2017 (GA 2017) held on August 25 – 27, 2017 at the Grand Copthorne Waterfront Hotel, Singapore.

As we continue to enrich 21st century innovations in the Aesthetic industry, we are especially grateful that you made your journey to Singapore for GA 2017. Our committee have worked to bring you 9 in-depth Workshops, Master Classes and courses on the cutting-edge novel techniques in non-invasive to minimally invasive to surgical aesthetic medicine for modern Asian men & women.

With the rising demands for non-surgical treatments and fast growing cosmetic trend, GA 2017 aims to provide delegates state-of-the-art practices surrounding autologous fat grafting, aesthetic gynaecology, anti-aging dermatology treatments, stem cell therapy, platelet rich plasma, thread lifting, Korean facial and body aesthetics, as well as developing marketing and retail strategies for aesthetic business.

GA 2017, organized jointly by the American Academy of Aesthetic Medicine (AAAM) and CBB Medical Training is regarded as AAAM’s largest workshop series in Asia and known for delivering world-class faculty of speakers. As one of the pioneering leaders in the global Aesthetic Medicine movement, AAAM is committed to training medical professionals and those with businesses in the field of Aesthetic Medicine to keep up with the accelerated pace of growth in ground-breaking discovery as well as demand from an ever-informed consumer market.

Co-located with AAAM Level 1 Certificate and Level 2 Diploma Courses, Level 3 Board Certification Examination and Hands-On Master Course, GA 2017 strives to equip physicians from basic theories in Aesthetic Medicines up to advanced hands-on treatment techniques to raise the bar of quality in patient care provided by such practices.

In addition, AAAM is privileged to be organizing the forthcoming 14th Annual American Academy of Aesthetic Medicine Congress (AAAMC) in Miami, Florida USA from November 10 - 12, 2017. An event through which networks are created and strengthened, AAAMC serves as a platform to unify the different paces of progress in Aesthetic Medicine Research worldwide.

I would also like to thank the sponsors and exhibitors of GA 2017 who will no doubt showcase innovative products and services throughout the course of these three days. I hope this will bring you blissful opportunity to explore, network and learn together as we collaborate to provide an increasingly seamless, quality and experience for our patients.

Thank you and enjoy the 3 days of power packed programme.

Dr Michel Delune
International President
American Academy of Aesthetic Medicine

**PROGRAM DESCRIPTIONS**

**WORKSHOP A**

- **Reduction of Cellulite in Thighs and Buttocks with Non-Invasive Treatments**
  (Prof Mucio Porto, Brazil)

- **Vampire V lift using Laser Activated PRP + Different Types of Cannula Cog Threads (360 Degree Spiral Cog Cannula, Mold (Pressed Type) and Bilateral Cog; Non-Surgical Eye Bag Removal using RF Cannula Dissection + Super Tornado & Powder Filler Combination Treatment**
  (Dr Kwon Han-Jin, South Korea)

- **Management of Jowls, Lower Facial Region and Neck Skin Laxity through surgical intervention**
  (Dr Taek-Kuen Kwon, South Korea)

**WORKSHOP B**

- **Provinding Patients the Body They Desire through Liposculpting**
  (Dr Marcelo Suarez, USA)

- **How to Improve Deep, Medium Depth & Fine Wrinkles without Botox and Filler**
  (Dr Kwon Han-Jin, South Korea)

- **Achieving Ideal Facial Proportionality with Chin Implants and Surgical Augmentation**
  (Prof Mucio Porto, Brazil)

**WORKSHOP C**

- **Providing Patients the Body They Desire through Surgical and Non-Surgical Treatments**
  (Prof Apirag Chuangsuwanich, Thailand)

- **How to Improve Deep, Medium Depth & Fine Wrinkles without Botox and Filler**
  (Dr Kwon Han-Jin, South Korea)

- **Achieving Ideal Facial Proportionality with Chin Implants and Surgical Augmentation**
  (Prof Mucio Porto, Brazil)

**WORKSHOP D**

- **Therapeutic and Clinical Management of Body Contouring Procedures and Handling Possible Complications**
  (Dr Marcelo Suarez, USA)

- **Techniques for Body Contouring Improvement & Identification of Complications and Possible Resolutions; How to Improve Post Lipo suction Sagging and Irregularities**
  (Dr Kwon Han-Jin, South Korea)

- **Techniques for Body Contouring Improvement & Identification of Complications and Possible Resolutions; How to Improve Post Lipo suction Sagging and Irregularities**
  (Dr Kwon Han-Jin, South Korea)

- **Widening the Eye through Epicanthoplasty and “Aegyo-Sal” Procedures for the Ideal Asian Eye**
  (Dr Kwon Taek-Kuen, South Korea)

- **Rejuvenation of the Upper Facial Area and Addressing Patient Concerns with Facial Rejuvenation Surgery**
  (Prof David Dae Hwan Park, South Korea)
9:00 – 10:30 | Workshop A
**Platelet-Rich Plasma Therapies for Improvement of Facial, Follicular, and Genital Aesthetics in Females and Males**
**Speaker:** Dr Michael Lim, Malaysia

- Scientific basis of Platelet-Rich Plasma (PRP) therapies and PRP preparation techniques
- Identify patient indications of PRP treatments for genital, facial, and hair treatments
- Understand the different treatment modalities for PRP therapies for different indications
- Choosing the appropriate PRP preparation system and kit for your practice
- The limitations, risks, and contraindications for PRP treatments in patients

10:30 – 11:00 Morning Refreshments and Networking Break

11:00 – 12:00 | Workshop B
**Cosmetic Augmented Mamoplasty by Injection**
**Speaker:** Dr Marcelo Suarez, USA

- Current technologies for harvesting, processing and injecting adipose tissue to the breasts for women and to the chest for men

12:00 – 13:30 Lunch and Networking Break

13:30 – 14:30 | Workshop C
**Fat Grafting for Facial Volume Restoration and Rejuvenation, Facial and Lip Contouring, and Treatment of Facial Scarring**
**Speaker:** Prof Kotaro Yoshimura, Japan

- Understand the scientific basis and reasoning for utilization of autologous fat grafting, hyaluronic acid fillers, botulinum toxin (BTX), and stromal vascular fraction (SVF) in facial rejuvenation and repair
- Identification of indications, contraindications, and target areas for treatment of fat grafting procedures in facial rejuvenation and regeneration
- Autologous fat preparation procedures and expert advice on the optimal administration techniques for the face
- Defining the benefits and limitations of autologous fat grafts and comparing fat grafts with dermal fillers
- Maximising patient facial rejuvenation outcomes through combination treatments of fat grafting, dermal fillers, BTX, and surgical intervention

14:30 – 15:30 | Workshop D
**Industry Sponsored Workshop by TICEBA - Autologous Mesenchymal Stem Cells from the Skin: Cutting Edge Technology for the Clinic of a New Class of Therapies and Prevention**
**Speaker:** Dr Christoph Ganss, Germany

- Pluripotent skin derived mesenchymal stem cells are to be a great opportunity for research as well as for clinical applications
- We will give an overview of the research being performed with these cells as well as where first clinical applications are being performed and the future perspectives. Latest results in first pilot studies will also be presented

15:30 – 16:00 Afternoon Refreshments and Networking Break

16:00 – 17:30 | Workshop E
**Large Volume Fat Grafting for Augmentation and Beautification of Asian Breasts, Breast Reconstruction and Treatment of Irradiated Tissue**
**Speaker:** Prof Kotaro Yoshimura, Japan

- Understand the scientific basis and reasoning for utilization of autologous fat grafting, synthetic implant, and stromal vascular fractions in breast enhancement in Asian thin patients
- Identification of indications, contraindications, and target areas for treatment of fat grafting procedures in breast augmentation and reconstruction
- Expert advice on optimized procedures for a large volume liposuction in challenging Asian thin patients as well as fat preparation and administration procedures to maximize clinical outcomes and minimize long-term complications
- Defining the benefits and limitations of autologous fat grafts
- Maximizing patient outcomes and satisfaction rejuvenation through selective treatments of fat grafting, synthetic implant and hybrid (combination of fat and implant)

17:30 – 18:00 Q & A
9:00 – 10:30 | Workshop A
Introduction to Aging Prevention and Control Utilizing Nutritional Therapies
Speaker: Dr Craigie Golding, South Africa

- Understand the physiological mechanisms of physical aging
- Identify the various nutritional aspects relating to physical aging
- Understand the role of nutrition in improving patient aging and well-being
- Classification of major nutritional deficiencies that lead to physical aging
- Nutritional tools for detoxification
- Optimizing patient nutritional intake

10:30 – 11:00 Morning Refreshments and Networking Break

11:00 – 12:00 | Workshop B
The Art of Non-Surgical Facial Sculpting: The Usage of the 8-Point Filler Technique in Males versus Females
Speaker: Dr Raj Aquilla, United Kingdom

- Identify the facial anatomy and understand the right patient assessment by facial zone
- Recognize the typical facial imperfections in Asian beauty and know the most common concerns in Asian men and women
- Explore non-invasive treatment options in facial sculpting in both males and females to restore balance and proportions in all facial types including round face and square jaw
- Know the most common complications of Botulinum Toxin Type A and hyaluronic acid fillers in the Asian patients and how to manage them
- Master the DO’s and DON’T’s in selecting treatment options in males and females to achieve desired aesthetic results

12:00 – 13:00 | GROUP EXERCISE
The 8 Point Approach was created by world famous Brazilian Plastic Surgeon Dr Mauricio de Maio, and refined by Dr Raj Aquilla, who works at the same clinic as Dr Cat in London. Learn from the expert himself, Dr. Raj Acquilia the 8 Point Approach with evaluation of live models and live demonstration on marking of injection points.

13:00 – 14:00 Lunch Break

14:00 – 15:30 | Workshop C
Choosing the Best Non-Invasive Formula in Combination Therapy for Facial Rhytides and Volume Restoration for Asian Patients
Speaker: Dr Raj Aquilla, United Kingdom

- Explore the anatomy of aging and understand the multiple factors that contribute to timing and degree of facial aging
- Uncover the truth in reversing photoaging that result from long-term exposure to sunlight and ultraviolet rays
- Master the techniques in utilizing combination therapy of anti-ageing formulas, thread lifting, Botulinum Toxin Type A, fillers, chemical peels and energy-based devices to address facial rhytides
- Understand your options to restore facial volume loss through fat grafting and fillers
- Know when to resort to aesthetic surgery to reposition facial tissues and alter the structure of the sagging tissues

15:30 – 16:00 Afternoon Refreshments and Networking Break

16:00 – 17:30 | Workshop D
Maximizing Anti-Aging Medicine Therapies to Improve Patient Well-Being
Speaker: Dr Craigie Golding, South Africa

- Learn the newest developments and treatment protocols in anti-aging medicine
- Learn techniques to assess and optimize patient hormone levels based upon environmental, dietary and physico-psychological conditions
- Understand variations between Male and Female nutritional and hormonal requirements for optimal well-being
- Hormone and Nutritional therapies to treat skin disorders and aging

17:30 – 18:00 Q & A
AESTHETIC GENITAL REJUVENATION
25 August 2017, Friday | Waterfront 3 Room, 2nd Floor

9:00 – 10:30 | Workshop A
Providing Female Genital Rejuvenation through Application of Energy-Based Devices
Speaker: Dr Piotr Sikorski, Finland

- Patient indications and desired outcomes of vaginal rejuvenation techniques
- Recognize the various treatment modalities and systems available for non-surgical vaginal rejuvenation
- Differentiating between various energy-based devices for vaginal rejuvenation; i.e. Radiofrequency (RF), CO2 Lasers, Ultrasound (US) Systems
- Contrasting between surgical and non-surgical vaginal rejuvenation treatments
- Selecting appropriate treatments areas for optimal patient outcomes in treating female sexual dysfunction

10:30 – 11.00 Morning Refreshments and Networking Break

11.00 – 12:00 | Workshop B
Improving Male Genital Aesthetics and Sexual Function through Non-Surgical Treatments
Speaker: Dr Piotr Sikorski, Finland

- Understand the aesthetic andrological concerns of male patients, indications and desired outcomes of therapy
- Non-surgical methods for the improvement of male genital aesthetics; implants, fillers, fat grafting
- Choosing the appropriate treatment areas to improve penile girth and aesthetics
- Recognize the differences in male genital aesthetics between various ethnic groups
- The latest treatment techniques for male genital aesthetics and addressing male sexual dysfunction
- Patient selection process and contraindication for male genital aesthetic treatments
- Contrast of surgical and non-surgical interventions for male genital aesthetics

12:00 – 13:30 Lunch and Networking Break

13:30 – 15:30 | Workshop C
Utilizing Fillers and PRP for Improvement for Female Genital Aesthetics and Sexual Function
Speaker: Dr Michael Lim, Malaysia

- The scientific basis and reasoning for usage of soft fillers in gynaecology for aesthetics and sexual dysfunction
- Choosing appropriate injection and treatment locations for fillers to pump thin labia minora, define labia majora contours, soften creases and wrinkles and improve the overall appearance of the genitalia
- The different types of injectable fillers available on the market, and pros and cons of each type
- Combination treatments of fillers, PRP, and Energy-based devices for peak patient satisfaction

15:30 – 16:00 Afternoon Refreshments and Networking Break

16:00 – 17:30 | Workshop D
Managing Patient Expectations and Consultations in Genital Augmentation Procedures and Identification of Possible Complications
Speaker: Dr Michael Lim, Malaysia

- Different types of complications that may arise during or proceeding from an aesthetic gynaecology procedure such as skin redness, skin sensitivity, and under or over correction resulting in asymmetry
- Prevention and removal of granulation or “clumping” in fillers post-procedure
- Long term effectiveness of non-invasive aesthetic gynaecology treatments and follow-up therapies
- How to identify risk factors for various procedures in patients
- Possible treatments, such as oral and subcutaneous injections, and resolutions for moderate to high risk complications of aesthetic gynaecology procedures
- Informed consent of patients and standardized photographs

17:30 – 18:00 Q & A

www.genderaesthetic.com
ADVANCED BODY CONTOURING
26 August 2017, Saturday | Waterfront 1 Room, 2nd Floor

9:00 – 10:30 | Workshop A
Choosing the Best Energy-Based Fat Reducing Device for Different Target Areas
Speaker: Dr Raj Acquilla, United Kingdom

- Explore the key target areas for patients in body contouring
- Understand the scientific and biological basis for Energy-Based Devices (EBD) and Cryolipolysis in non-invasive body contouring
- Discover the differences between Low Level Laser Treatment (LLLT), Radio Frequency (RF), & High-Intensity Focused Ultrasound (HIFU) and Cryolipolysis
- Appreciate the advantages and limitations of non-surgical body contouring devices
- Determine the appropriate treatment modality for abdominal, flanks, thighs, arms, and other locations based on patient presentation and indications.
- Maximise ROI in choosing an appropriate treatment system for your clinic

10:30 – 11:00 Morning Refreshments and Networking Break

11:00 – 12:15 | Workshop B
Reduction of Cellulite in Thighs and Buttocks with Non-Invasive Treatments
Speaker: Prof Mucio Porto, Brazil

- Understand the biological and scientific underpinning of Cellulite and its treatments
- Recognize the key anatomical differences between cellulite, subcutaneous adipose deposits, and poor skin laxity
- Understand the limitations of cellulite treatments
- Comparison between topical products, injectable products, energy-based devices, & surgical intervention in effective cellulite management
- Choosing the appropriate treatment modality for optimal patient results

12:15 – 13:45 Lunch and Networking Break

13:50 – 15:30 | Workshop C
Providing Patients the Body They Desire through Liposculpting
Speaker: Dr Marcelo Suarez, USA

- Recognize the intent and purpose of liposculpture treatments
- Identify key areas of focus in liposculpture for optimal patient outcomes

15:30 – 16:00 Afternoon Refreshments and Networking Break

16:00 – 17:30 | Workshop D
Therapeutic and Clinical Management of Body Contouring Procedures and Handling Possible Complications
Speaker: Dr Marcelo Suarez, USA

- Classifying patients and key considerations for practitioners during consultation – obesity, visceral fat, poor health habits
- Handling patient expectations for Body contouring procedures
- Identification of risk factors and contraindications in body contouring procedures for patients
- Detecting and treating possible complications from body contouring procedures
- Explore therapeutic indications for body contouring procedures

17:30 – 18:00 Q & A
ADVANCED KOREAN FACIAL AND BODY TECHNIQUES
26 August 2017, Saturday | Waterfront 2 Room, 2nd Floor

10:00 – 10:45 | Workshop A
Face Lifting Utilizing Different Types of Threads (PDO, PLLA & PCL) and Comparison of 2 Different Techniques (Mechanical lifting & Collagen Stimulating Lifting)
Speaker: Dr Han-Jin Kwon, South Korea

- History of Absorbable threads & Advantage of using absorbable threads
- Latest discoveries in 2 year lasting absorbable PCL & PLLA threads
- Understanding the Characteristics of Different types of absorbable threads
- Basic theory of absorbable thread lifting and How to make Vectors with fine mono threads (Parallel vector technique & Fishbone technique)
- Theory, Parallel vector technique & Fishbone technique to create the Ultra V lift effect
- Comparison of 2 Different techniques (Mechanical lifting with cogs & Collagen Stimulating lifting with Mono, Tornado and Double Twists)
- How to treat the complications after thread lifting
- Effective Thread Based techniques for the improvement of facial ptosis
- Recognizing the key target areas for treatment and limitations of thread based therapies for facial rejuvenation
- Choosing the ideal treatment modality for facial rejuvenation to achieve optimal patient results

10:45 – 11:00 Morning Refreshments and Networking Break

11:00 – 12:15 | Workshop B
Vampire V Lift using Laser Activated PRP + Different Types of Cannula Cog Threads (360 Degree Spiral Cog Cannula, Mold (Pressed Type) and Bilateral Cog); Non-Surgical Eye Bag Removal using RF Cannula Dissection + Super Tornado & Powder Filler Combination Treatment
Speaker: Dr Han-Jin Kwon, South Korea

- Intradermal treatment of Air dissection for medium depth wrinkles and acne scar
- RF Cannula technique for the improvement of difficult areas (Jowl, Nasolabial folds, Malar protrusions, Deep Forehead wrinkles & Eye bags)
- Science behind laser activated PRP and its clinical usage

12:15 – 13:00 Workshop Break

13:00 – 13:45 Networking Lunch

13:50 – 15:30 : Workshop C
How to improve Deep, Medium Depth & Fine Wrinkles without Botox and Filler
Speaker: Dr Han-Jin Kwon, South Korea

- Long lasting injection technique for Non Cross Link cosmetic application and indications of Aqua Shine Injections in patients
- Non Cross HA for moisture and illumination and combination with Idebenon for melasma & whitening
- Advantages of RF Cannula & Powder Filler Combination
- Advances in Korean volume management techniques and the usage of powder filler in the treatment of different areas

15:30 – 16:00 Afternoon Tea Break

16:00 – 17:30 | Workshop D
Techniques for Body Contouring Improvement & Identification of Complications and Possible Resolutions; How to Improve Post Liposuction Sagging and Irregularities
Speaker: Dr Han-Jin Kwon (South Korea)

- Showcase of techniques available for abdomen, calf and body contouring and sculpting such as body lifts
- Comparison between liposuction, lipolytic treatments and thread procedures
- Latest advancement in calf reduction
- Identification of various risk factors for patients in body contouring techniques

- Choosing the ideal treatment modality for body rejuvenation to achieve optimal patient results

17:30 – 18:00 Q & A
9:00 – 10:30 | Workshop A
Contemporary Techniques of Combination Lower Eyelid and Mid Face Lift Surgery
Speaker: Dr Taek-Kuen Kwon, South Korea

- Latest incisional and lifting techniques for lower eyelid and mid-face rejuvenation surgery
- Appreciate the differences in patient desired outcomes and expectations between females and males for mid-face rejuvenation surgery
- Maximise combination treatment modalities to optimally address patient lower eyelid and mid-facial sagging in Asian patients
- Identify key target structures for lower eyelid and mid-face rhytidectomy surgery and understand the variations in landmarks between male and female treatment
- Feminization and masculinization of facial features during lower eyelid and mid-face rejuvenation surgery

10:30 – 11:00 Morning Refreshments and Networking Break

11:00 – 12:15 | Workshop B
Management of Jowls, Lower Facial Region and Neck Skin Laxity through surgical intervention
Speaker: Dr Taek-Kuen Kwon, South Korea

- Recognize the key anatomical structures involved in neck and lower face skin laxity as well as jowl formation
- Latest techniques to address neck and lower facial skin laxity minimizing plastysmal complication
- Combination treatments of surgical and non-surgical methods to improve patient neck and lower facial skin laxity
- Identify the risks and possible complications of neck augmentation procedures and solutions to the complications

12:15 – 13:45 Lunch and Networking Break

14:00 – 15:30 | Workshop C
Theory and Achieving Ideal Facial Proportionality with Chin Implants and Surgical Augmentation
Speaker: Prof Mucio Porto, Brazil

- Understand the differences in desired patient outcomes between male and female patients

15:30 – 16:00 Afternoon Refreshments and Networking Break

16:00 – 17:30 | Workshop D
Rejuvenation of the Upper Facial Area and Addressing Patient Concerns with Facial Rejuvenation Surgery
Speaker: Prof David Dae Hwan Park, South Korea

- Upper facial rejuvenation techniques – surgical and non-surgical techniques for upper face rejuvenation
- Choosing the appropriate treatment modality to address patient needs – surgical brow lifts, fillers, and botox
- Understanding the differences in expected patient results between Asian Male and Female patients
- Appreciate the primary concerns of patients facing facial rejuvenation surgery and techniques to allay patient anxiety
- Identification of possible complications from facial rejuvenation treatments and appropriate solutions

17:30 – 18:00 Q & A
**9:00 – 10:30 | Workshop A**
**Lifting and Filling Patients’ Gluteal Regions through Surgical and Non-Surgical Treatments**
**Speaker: Prof Apirag Chuangsuanich, Thailand**

- The notable anatomical structures in gluteal augmentation
- Appreciated the various forms of gluteal augmentation available; i.e. butt lifts, butt volume enhancement or augmentation
- Understanding the various techniques available for gluteal augmentation i.e. implants, fillers, Energy-Based Devices
- Recognize the indications and contraindications for gluteal augmentation
- Distinguish expectations between Asian and Western gluteal augmentation
- Identify and addressing complications from gluteal augmentation procedures

**10:30 – 11:00 Morning Refreshments and Networking Break**

**11:00 – 12:30 | Workshop B**
**Helping Patients Achieve the Breasts They Desire through Surgical Augmentation**
**Speaker: Prof Apirag Chuangsuanich, Thailand**

- Distinguishing between various incisional locations, the pros and cons
- Differences in various implant types and choosing the best implant for your patient
- Combining breast augmentation and implant surgery
- Breasts implant replacement – considerations, indications, and contraindications
- Identification of risks and side-effects from breast augmentation surgery

**12:30 – 13:30 Lunch and Networking Break**

**13:30 – 16:00 | Workshop C**
**Breasts Rejuvenation with Platelet Rich Plasma and Lifting with Botulinum Toxin A and Threads**
**Speaker: Dr Michael Lim, Malaysia**

**16:00 – 16:30 Afternoon Refreshments and Networking Break**

**16:30 – 17:30 | Workshop D**
**Beautiful Buttocks - Non-Surgical Techniques**
**Speaker: Dr Riekie Smit, South Africa**

- Latest Techniques to Lift & Firm the Buttocks with Injectables, Threads and Energy Based Devices

**17:30 – 18:00 Q & A**
AESTHETIC MARKETING, CLINIC BRANDING & SOCIAL MEDIA STRATEGIES
27 August 2017, Sunday | Waterfront 2 Room, 2nd Floor

Speaker: Dr Lenzo Ling
Aesthetic Surgeon, Entrepreneur, Life Coach & Mentor, Cheerful Giver, Malaysia

- Co-Author, Aesthetic Plastic Surgery in Asians: Principles and Techniques (QMP, June 2015);
  ‘Aesthetic Corrections of Facial Skeleton: Mandibular Contouring’ Session

Dr Han-Jin Kwon
Founder, Dermaster
South Korea

Dr Kwon is the founder/current representative director of DERMAS TERE Clinic Network. He has established his presence in Korea and other countries such as the USA, Europe, Malaysia, Thailand, Philippines, Indonesia, Singapore, China, Vietnam, and Hong Kong.

Dr Kwon is well-known for his Ultra V-Lift. His method of creating a V-shaped face via a non-invasive method has received positive feedback from both patients and doctors. Dr Kwon speaks widely in national and international congresses.

Dr Kwon has also received a number of awards on the laser aspects:
1. 2007 Top Doctors of Laser Reliant Inc. USA
2. 2006 Top Doctors of Laser Reliant Inc. USA
3. Top Doctors of Laser, Reliant Inc. USA

Dr Taek-Kuen Kwon
Head & Plastic Surgeon, Aone Clinic
South Korea

Dr Taek-Kuen Kwon is an alumni of Korea University. One of the highly rated plastic surgeons in South Korea, Dr Kwon is the founder and director of Aone Plastic & Aesthetic Surgery Clinic in Seoul. Dr Kwon is active in the academic and is a professor at Andong University, Ewha University, Korea University and Keimyung University. He organized the 1st to 14th Aone Plastic & Aesthetic Surgery Symposium. He is an awardee of Korea’s Minister of Justice and received an award of the CEO of the National Tax Services.
Dr Michael Lim
Medical Director, Prime Genesis
Malaysia

Dr Michael Lim Ming Soon has been practising Aesthetic Medicine since 2000 with a background in Ophthalmology and Family Medicine. He has received training from a diverse range of countries such as Greece, France, Italy and the USA. Dr Lim preaches the appreciation of the Art of Beauty in Aesthetic Medicine. He has pioneered his approach to Aesthetic Medicine in the SEA region by being very meticulous and has had no complications from any of his procedures since 1999.

Using botulinum toxin, Dr Lim has innovated a new method of injection to reshape the face without masseter intervention in 2006 – creating a ‘Natural Lift’ without invasive surgery. Since 2008, he has been permanently healing acne scars, wrinkles, loss of facial volume and stretch marks after learning to optimise results of facial PRP. Furthermore in 2013, Dr Lim created the first G-spot enhancement method to enhance orgasms and increase libido. He led the first Stem Cell transplantation in the Singapore and Malaysian region using cultured umbilical and dental pulp MSC. He is currently the Medical Director of Prime Genesis Pte Ltd Singapore and an assistant trainer with AAAM courses in Malaysia.

Dr Lenzo Ling
Founder/CEO GEM Clinic Group, Aesthetic Surgeon
Malaysia

Dr Ling is the first Malaysian doctor who completed 2 years of training in the field of Cosmetic Surgery and Medicine under the Korean College of Cosmetic Surgery. He earned his medical degree in 2004 from the National University of Ireland where he then proceeded to pursue a one and a half year internship course and a two and a half year tenure at the Plastic Surgery Department of Ipoh General Hospital to gather more experience. He was Board Certified in Aesthetic Medicine by the American Academy of Aesthetic Medicine in the United States and later obtained his Fellowship at the Korean College of Cosmetic Surgery.

He has a simple surgical philosophy: To achieve the most natural and subtle yet effective results is through minimally invasive procedures or the 5 S’s; Safe, simple, subtle, selective and satisfaction.

As an entrepreneur, Dr Ling realises that the strength of an organisation lies on the shoulders of its leaders. In his pursuit to further strengthen his position as a leading cosmetic surgeon and entrepreneur, Dr Ling pursue a Master’s of Science in Global Management study from the UK. This has allowed him to be a visionary leader and helping him inspire his team to strategically and effectively face challenges the industry posses.

Prof David Dae Hwan Park
Professor and Chairman, Department of Plastic Surgery Catholic University of Daegu
South Korea

Professor Park founded the Korean Academy of Oculoplastic Surgery (KAOPS) in 2004. He is currently the President of the International Society of Oriental Blepharoplasty (ISOB), and the National Secretary of Korea, International Society of Aesthetic Plastic Surgeons (ISAPS).

He was the Section Editor of the Aesthetic Plastic Surgery Journal and sits on the Advisory board of the Journal of Aesthetic Plastic Surgery.

Call our Treatment Concept Specialist today at 6244 2140 to set up & develop your Future Medical Aesthetics Business.
You will age.
Your cells won’t.

We take a tiny sample of your skin. Separate the stem cells. Store your stem cells in liquid nitrogen. Forever. Then, one day, when old age or illness overtakes you, you could use them. Regenerate you using your younger, stronger, healthier self. It’s not science fiction. Just science.

Brands of Products on Exhibit: Eclipsia+, ThermoCare by Elsa

Innapro - International Natural products Company Ltd

Founded in 1995, our company provides professional training services on Medical beauty devices and skin repair products to Doctors and beauty professionals.

We have experts in the field of Thermocoagulation. We carry Canadian medical devices - Eclipsia + and ThermoCare by Elsa.

Eclipsia + is for medical while ThermoCare by Elsa is for aesthetics. Both of the machines can treat different imperfections such as moles, freckles, Milia, Cherry Angioma, Teleangietia, Skin Tag, Acne and Pigments, mostly by one time treatment.

The machines use sterile thermocoagulation probes. The special of the machines are the tip of the probe can emit RF radio frequency very precisely and ‘point to point’ to remove the imperfections.

No bleeding during the treatment and leads to extreme customer satisfaction.
GOLDEN RATIO IN PRP

T-Lab, accelerates your treatment by providing optimum platelet concentration.
